A lesson that still plays when the connection does not

Hana opens her lesson on a phone in Addis Ababa.

ሃና ትምህርቷን በአዲስ አበባ በስልኳ ትከፍታለች።

Picture: A phone is drawn on a paper-coloured screen, with a short caption under it.

She needs English and Amharic captions she can make larger.

የእንግሊዝኛ እና የአማርኛ ጽሑፍ መግለጫዎችን ማተለቅ ትፈልጋለች።

Picture: The caption bar grows taller. The letters are yellow on a black band.

A sign window can move and grow, so Ethiopian Sign Language sits where she needs it.

የምልክት መስኮቱን ማንቀሳቀስና ማተለቅ ትችላለች። የኢትዮጵያ የምልክት ቋንቋ የምትፈልገውን ቦታ ይይዛል።

Picture: A second window lifts off the phone. It is labelled Ethiopian Sign Language.

Audio description says what the picture is doing, for a learner who cannot see it.

የድምጽ መግለጫ ሥዕሉ ምን እንደሚያደርግ ይናገራል። ለማያየው ተማሪ ነው።

Picture: A round speaker icon appears beside the phone.

When the network is slow she keeps a small pack: sound, text, and a light page.

ኔትወርኩ ሲዘገይ ትንሽ ጥቅል ታስቀምጣለች። ድምጽ፣ ጽሑፍ፣ እና ቀላል ገጽ።

Picture: The phone is replaced by a short stack of pages and a sound file.

The lesson on this page is the same one, with the network or without it.

በዚህ ገጽ ላይ ያለው ትምህርት አንድ ነው። ኔትወርክ ቢኖርም ባይኖርም።

Picture: The stack of pages stays in the centre of the screen.

A simple drawing, not a photograph. A tall rounded rectangle stands in for a phone. Inside it, a smaller rectangle is the screen. Under the phone, two lines of caption text are suggested by a black bar and a shorter bar. Nothing in the drawing depends on colour alone: the phone has a dark outline and the caption bars are separate shapes.
